

**NOTE: Your regular New York State license or ID card will not allow you to fly starting October 2020.**

After October 1, 2020, only the Enhanced or REAL ID will be accepted to get on a domestic flight, enter certain federal buildings or military bases (unless you have a Passport).

**\*If you plan to travel, we recommend you upgrade before 2020.**

**NYS now offers 3 options when it comes to getting a driver license, permit, or non-driver ID:**

### **ENHANCED**

**An Enhanced license, permit, or non-driver ID can be used to:**

- Board a domestic flight (within the U.S.)
- Enter a federal building or military base
- Cross a U.S. border coming from Canada, Mexico, and some Caribbean countries (it is not acceptable for air travel between these countries)
- Prove identification

#### **The Enhanced:**

- is Federal REAL ID compliant
- costs an additional \$30 on top of the regular transaction fees
- requires an office visit to obtain/upgrade

### **REAL ID**

**A REAL ID license, permit, or non-driver ID can be used to:**

- Board a domestic flight (within the U.S.)
- Enter a federal building or military base
- Prove identification

#### **The Real ID:**

- is Federal REAL ID compliant
- does not have additional cost, but all regular transaction fees will apply
- requires an office visit to obtain/upgrade

## **STANDARD**

**A Standard license, permit, or non-driver ID can be used to:**

- Board a domestic flight (**only until October 1, 2020**)
- Prove identification

**The Standard:**

- is **not** Federal REAL ID compliant
- does not have additional cost, but all regular transaction fees will apply
- does not require an office visit to replace or renew
- will require a second form of identification to board a flight **after** October 1, 2020
- has “**NOT FOR FEDERAL PURPOSES**” displayed on the document if issued after October 30, 2017

\*If issued before October 30, 2017 and it is not **Enhanced**, you have a **Standard document**.
